JOURNAL

of the

RUBBER RESEARCH INSTITUTE

of

MALAYSIA

COMMONWEALTH
18 APR 1980

VOLUME 25, PARTS 1 — 3, 1977

Correct abbreviation for citing references, according to the World List of Scientific Periodicals:

J. Rubb. Res. Inst. Malaysia

Printed by Rajiv Printers, 73, Jalan Ampang, Kuala Lumpur.

CONTENTS OF VOLUME 25

PART 1

	Communication	Page
Natural Rubber-based Slow-release Fertilisers. *C.S. Yeoh and N.K. Soong*	602	1
Protein and Enzyme Variation in Some *Hevea* Cultivars. *Yeang Hoong Yeet, H. Ghandimathi and K. Paranjothy*	603	9
Effect of Baling Temperature on Storage of Crated Block Rubbers (SMR 5L, 10 and 5CV). *Cheong Sai Fah*	604	19
Latex Flow Studies X. Distribution of Metallic Ions between Phases of *Hevea* Latex and the Effects of Yield Stimulation on this Distribution. *Esah Yip and H.C. Chin*	605	31
Some Factors Affecting Yield Response to Stimulation with 2-Chloroethylphosphonic Acid. *S.W. Pakianathan*	606	50

PART 2

Estimation of Aldehyde Groups in Natural Rubber with 2,4-Dinitrophenylhydrazine. *A. Subramaniam*	607	61
Observations on Bacterial Activity in Natural Rubber Latex – Plate Counts of Latex Bacteria on a Supplemented Medium. *K.C. Shum and W.G. Wren*	608	69
Storage Behaviour of Crated Tyre Rubber: Effect of Baling Temperature and Viscosity Stabilisers. *Cheong Sai Fah* ..	609	81
Production, Germination and Dispersal of Basidiospores of *Ganoderma pseudoferreum* of *Hevea*. *T.M. Lim*	610	93

PART 3

Residual Effect of Applied Phosphates on Performance of *Hevea brasiliensis* and *Pueraria phaseoloides*. *E. Pushparajah, Mahmud bin Hj. Abd. Wahab and C.H. Lau*	611	101

	Communication	Page
Demonstration of Latex Coagulants in Bark Extracts of *Hevea* and Their Possible Role in Latex Flow. *J.B. Gomez* ..	612	109
Further Studies on the Occurrence and Distribution of Microhelices in Clones of *Hevea*. *J.B. Gomez and S.J. Tata* ..	613	120
Effect on the Dynamic Properties of Rubber Exposed to Sunlight. *A.S. Tan, C.L. Lim and B.L. Chan*	614	127
